

FLEXSPRAY™ GUN SERIES

Spray Dispensing Applicator with Integrated Air Heater

The Valco Melton FlexSpray Gun Series is a cost-effective solution that provides highly accurate adhesive application and reduces initial investment in addition to spare parts inventory. This gun series simplifies the heating process with a new air heating system. Specially designed for the nonwoven and converting industries, the FlexSpray Gun Series is compatible with SwirlCP, BAT25, and BAT22 Modules to cover a variety of dispensing equipment applications including swirl, mini-swirl, strand coat and curtain coat.

- New air heating system increases thermal efficiency and reduces cabling needs
- Accepts various non-contact dispensing technologies
- Simplifies installation requirements and reduces maintenance costs and downtime with a modular design
- 100% compatible standard parts

Integrated filter and drain valve ensure high quality and clean applications.

Three module options are available to meet specific application needs.

Multiple hose ports available to customize hot melt supply.

Plate for heat insulation creates a uniform thermal profile.

NEW patent-pending integrated air heating manifold ensures the right air temperature for the application.

Choose Your Application

Valco Melton's range of application products offer a complete selection of hot melt components and support equipment:

- RTD hot melt hoses
- Manual and automatic dispensing valves
- Nozzle and applicator styles
- Mounting bracket packages
- Solid-state pattern control systems
- In-line filters
- Replacement parts for competitive systems
- High-performance hot melt adhesives

Choose Your Tip

Technical Specifications

Specifications	
Max. Operating Temperature	240°C / 464°F
Max. Operating Hydraulic Pressure	100 bar / 1450 psi
Max. Operating Cycle Rate	2400 cycles per minute
Operating Air Pressure	4-6 bar / 58-87 psi
Electrical Consumption	190-250 VAC 50/60 Hz
Max Size	1000 mm body length
Max. Spray Air Pressure	2.5 bar / 36 psi
